

In order to standardize the language setting in records of the aggregated repositories by the portal RCAAP, and in accordance with the guidelines DRIVER, where the use of ISO 639-3 is REQUIRED.

The records that did not include this standard will be identified by the validator repositories: <http://validador.rcaap.pt>

To change / add the field of metadata for the language, they must use the dc.language.iso and apply one of the following values:

Common ISO 639-3 codes	Language	code ISO 639-3
Portuguese	por	
English	eng	
Spanish	spa	
French	fra	
German	deu	
Mirandês	mwl	
Italian	ita	
Chinense (mandarin)	cmn	
Japanese	jpn	

For other language codes check the website: <http://www.sil.org/iso639-3/codes.asp>
