

The [directory](#) service aims to provide a single point a complete and exhaustive list of Open Access repositories and journals available in Portugal and Brazil.

Information on Portugal is being maintained by RCAAP project and information relating to Brazil is maintained by IBICT. The registration of a repository or journal in the directory can be done in the [directory](#) . Registration policies of publishers and Portuguese journals for self-archiving in institutional repository must be made through the [service](#) [Blimunda](#)

.
